

COLOR ME ORGANWISE

Hello fellow OrganWise Guy Club Members,

April showers have often been about the rain, but for me, the term reminds me to practice good hygiene. Good hygiene means showering on a regular basis, as well as brushing my teeth and flossing every day! I know flossing can be tough, but keeping your gums healthy is just as important for your teeth as brushing them every day. So be sure to take your April showers, that way you'll smell as fresh as the May flowers!

Until we meet again,
Pepto
